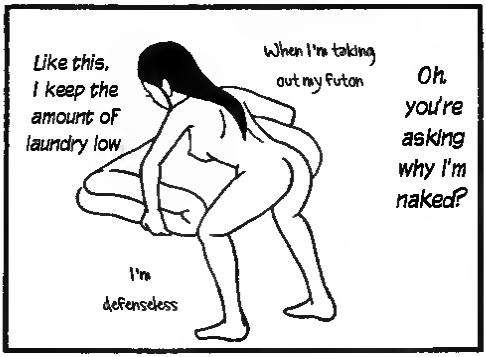
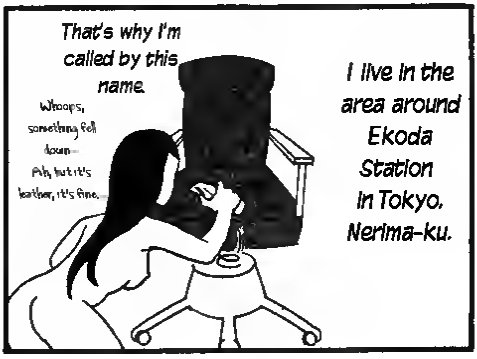
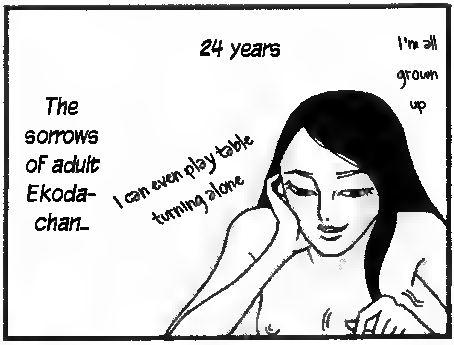
May I present you the unknown parts of my life ?
I'm not playing cutie!
I'm 24, single, freeter, and live alone.
I'm putting cream on my pimples.



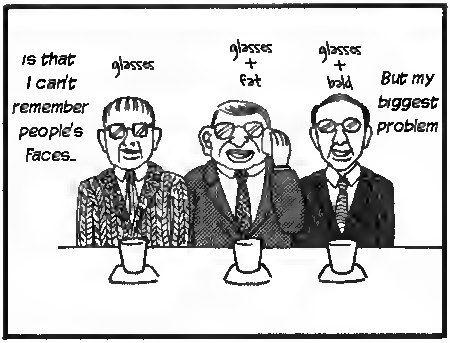


That's why I'm called by this name.
Whoops, something fell down—
Ah, but it's leather, it's fine.
I live in the area around Ekoda Station in Tokyo, Nerima-ku.

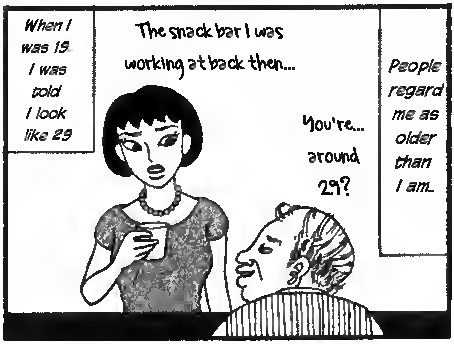
I sometimes work at night
As I mentioned before -
I'm poor...



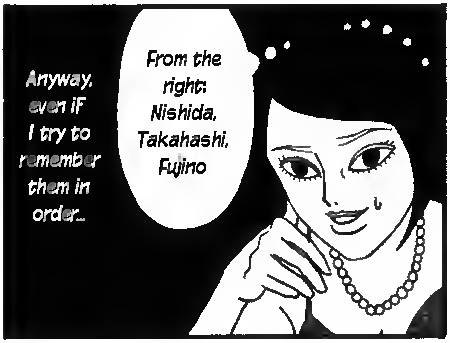
24 years
I'm all grown up
The sorrows of adult Ekoda-chan...
I can even play table tennis alone



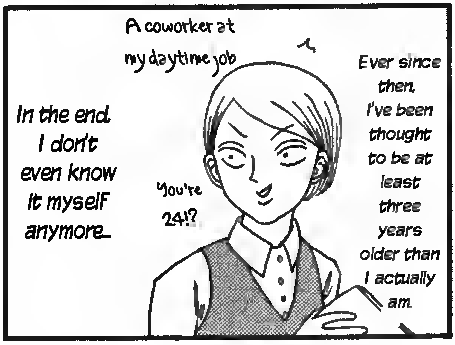
Is that I can't remember people's faces...
glasses
glasses + fat
glasses + bald
But my biggest problem



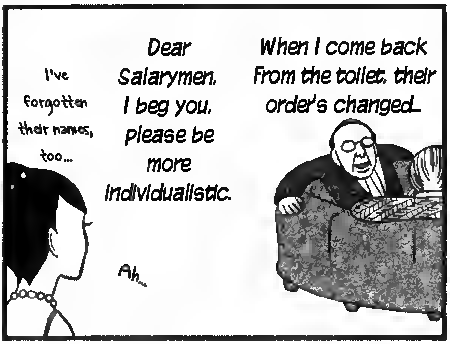
When I was 19 I was told I look like 29
The snack bar I was working at back then...
You're... around 29?
People regard me as older than I am...



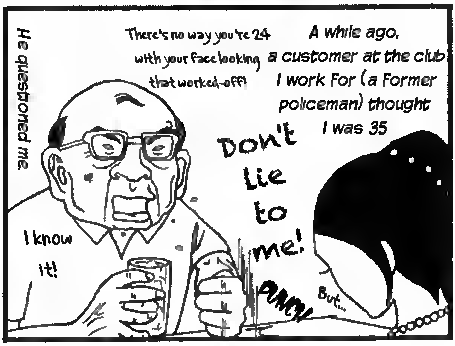
Anyway, even if I try to remember them in order...
From the right: Nishida, Takahashi, Fujino



A coworker at my daytime job
In the end, I don't even know it myself anymore...
You're 24!?
Ever since then, I've been thought to be at least three years older than I actually am.

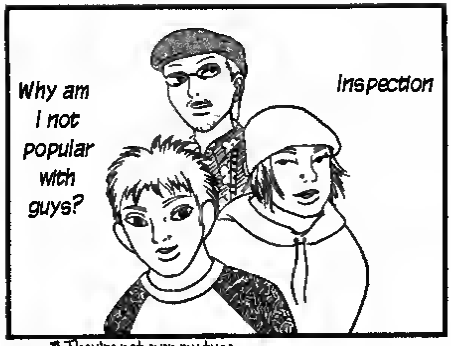


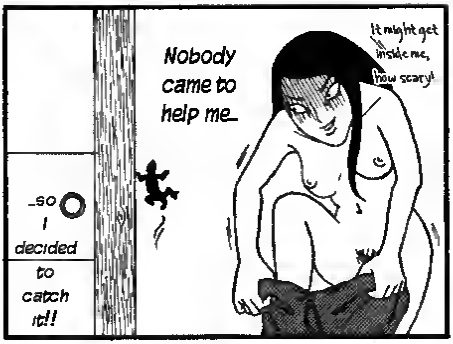
I've forgotten their names, too...
Dear Salarymen, I beg you, please be more individualistic.
Ah...
When I come back from the toilet, their order's changed...

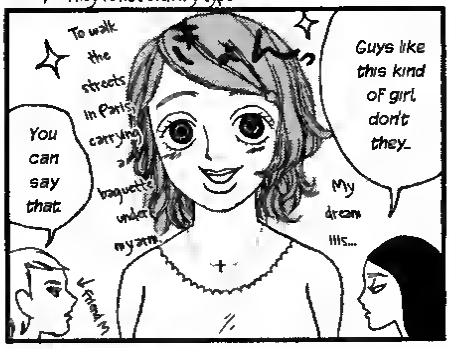


He questioned me.
There's no way you're 24 with your face looking that worked-off!
A while ago, a customer at the club I work for (a former policeman) thought I was 35
Don't lie to me!
I know it!
But...

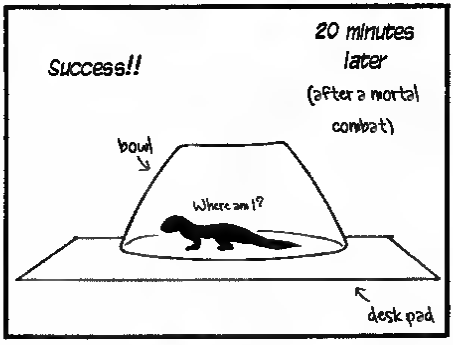
I live in an apartment, so I've learned to cry quietly.

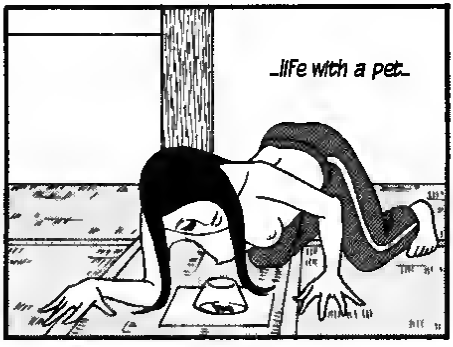


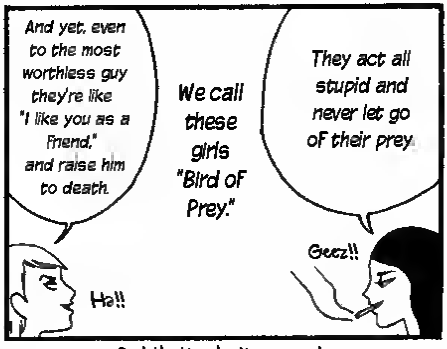




To walk the streets in Paris carrying a baguette under my arm
You can say that.
Guys like this kind of girl, don't they_
My dream was...
Friend

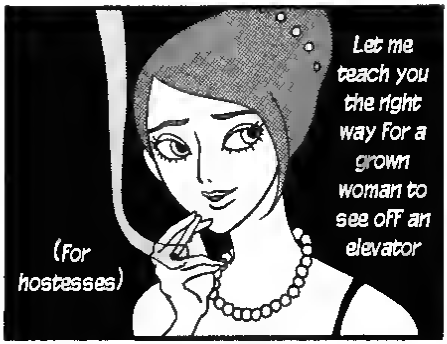






And yet, even to the most worthless guy they're like "I like you as a friend," and raise him to death.
We call these girls "Bird of Prey."
They act all stupid and never let go of their prey.
Ha!!
Geez!!

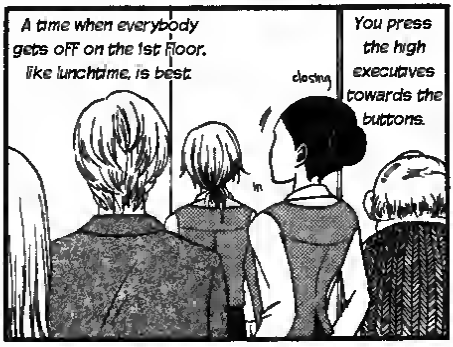
And that's why I'm no good.



(For hostesses)
Let me teach you the right way For a grown woman to see off an elevator

(For office workers)
Let me teach you the right way For a grown woman to get on an elevator

Act like it's the final Farewell...
Thanks For today!
Come back again!



A time when everybody gets off on the 1st floor. like lunchtime, is best.

You press the high executives towards the buttons.

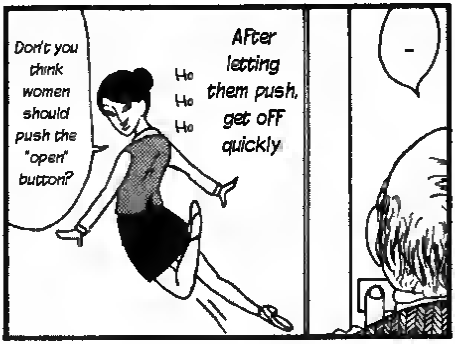
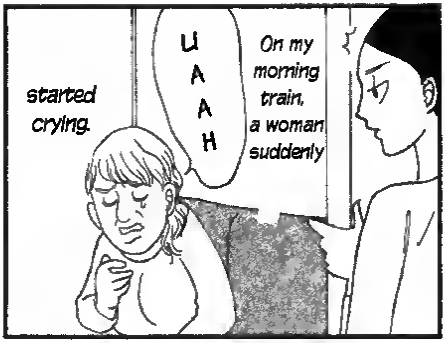
There it is!!
whistle
whistle
with the nose
bird of prey

And expose yourself com-pletely
But he's got money! Saya said she got 10,000.
Ah, that itches
scratch
Make sure there are no Following customers...
Geez, he had stinky breath...



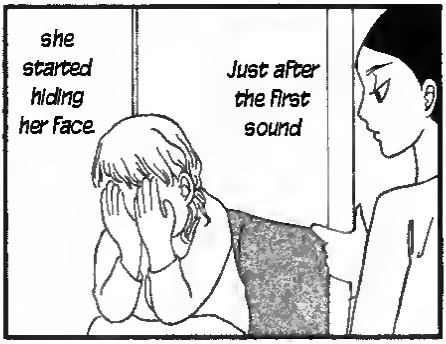
Don't you think women should push the "open" button?
Ho Ho Ho
After letting them push, get off quickly
-

I see.
That's what happened.

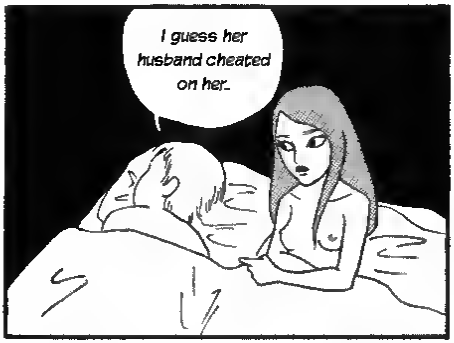


On my morning train, a woman suddenly
UAAH
started crying.

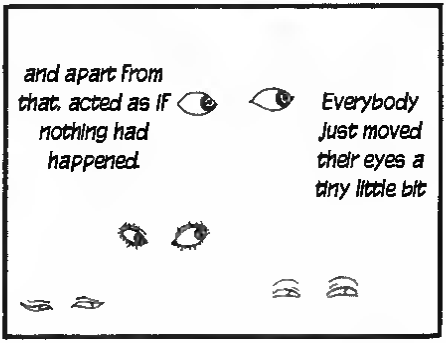
Isn't it weird how everybody just acts as if nothing had happened at times like that?
Hm -



she started hiding her face.
Just after the first sound

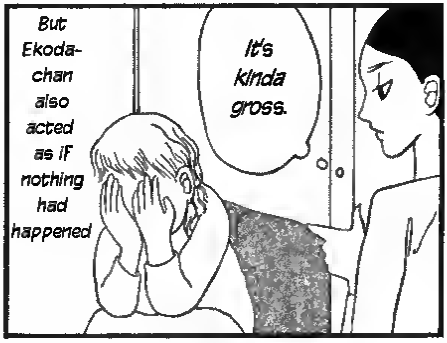


I guess her husband cheated on her.

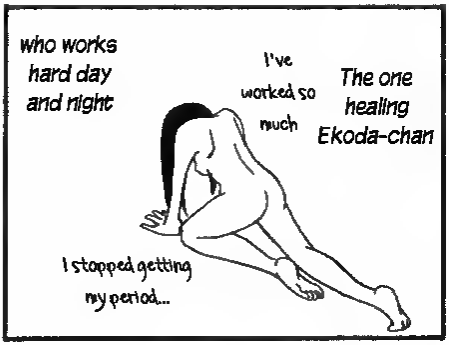


and apart from that, acted as if nothing had happened.
Everybody just moved their eyes a tiny little bit

We're all lost in communication.
That's not what I mean.



But Ekoda-chan also acted as if nothing had happened
It's kinda gross.



who works hard day and night
I've worked so much
The one healing Ekoda-chan
I stopped getting my period...

At the club
Welcome!
I look the same everytime
Thank you!

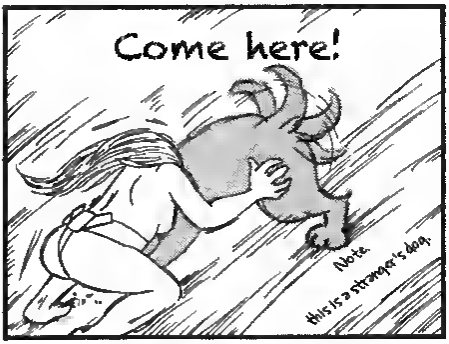
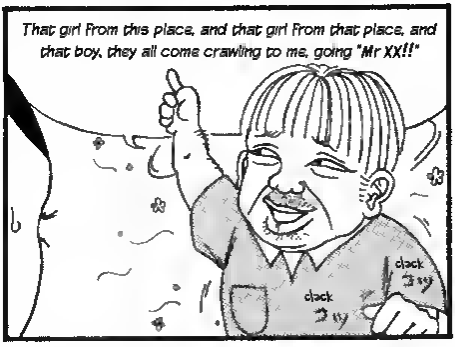
I'm Famous in Shinjuku, you know...
As soon as he sits down...
clack
clack



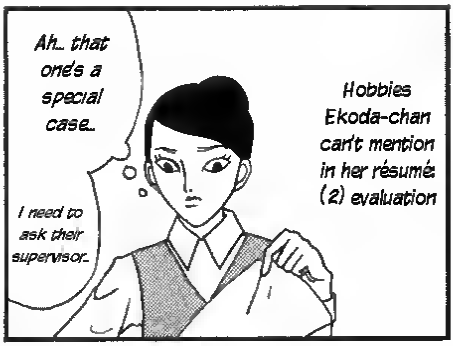
Come here!
Hmm. this is a stranger's dog.

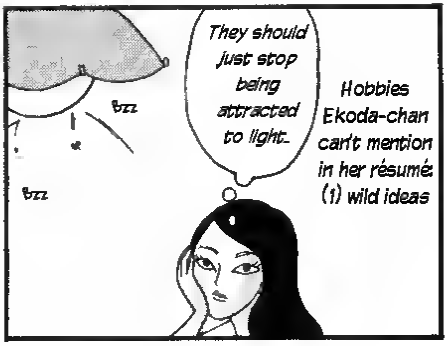


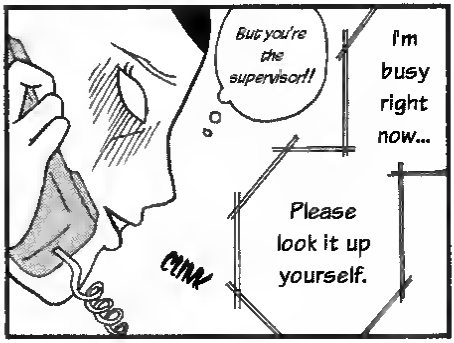
That girl from this place, and that girl from that place, and that boy, they all come crawling to me, going "Mr XX!!"
clack
clack

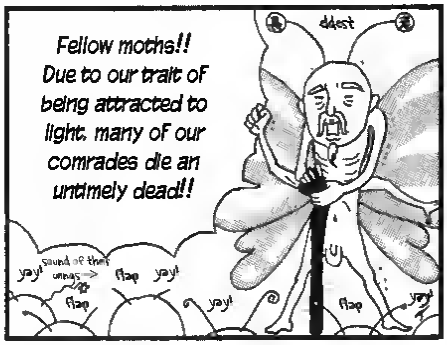
..a dog visiting you?
Lately, there's been a dog visiting me..

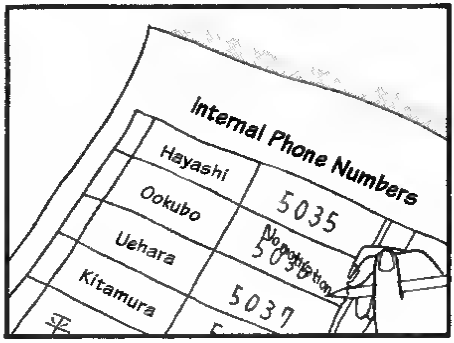
your delusions are
- how great



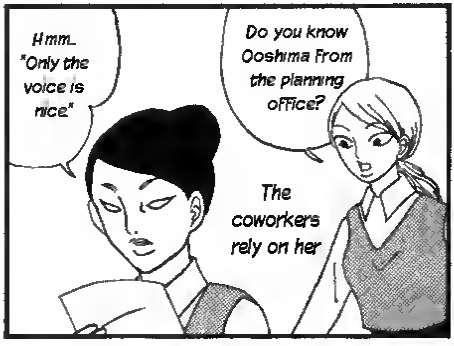




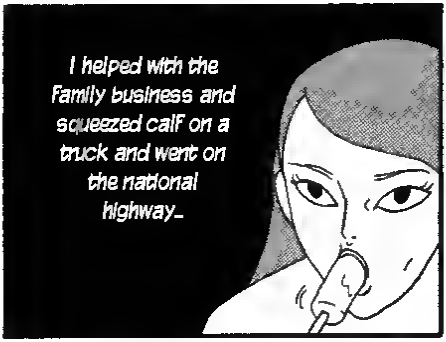


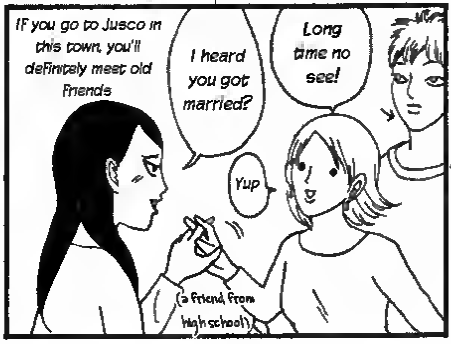


She can't hold a pencil correctly



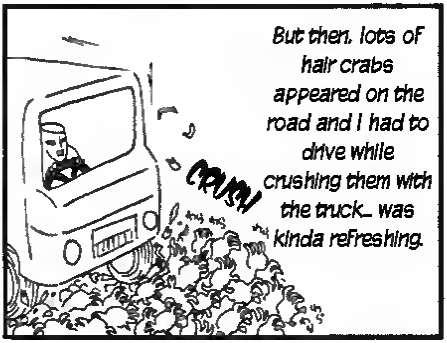
TL Note: The map shows Hokkaido



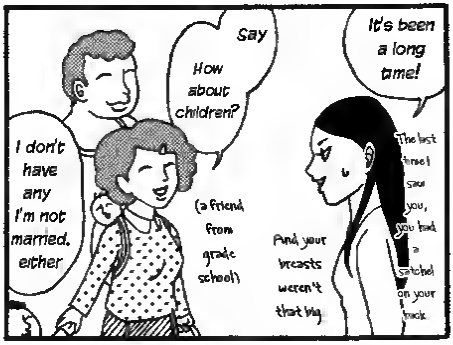


If you go to Jusco in this town, you'll definitely meet old friends
I heard you got married?
Long time no see!
Yup
(a friend from high school)

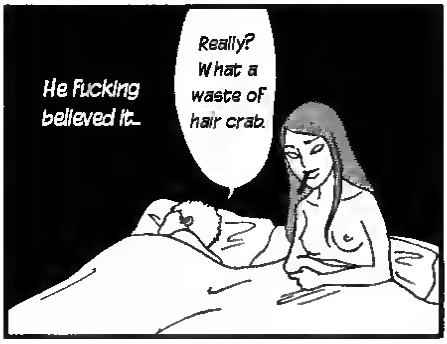
TL Note: Jusco is a supermarket chain.

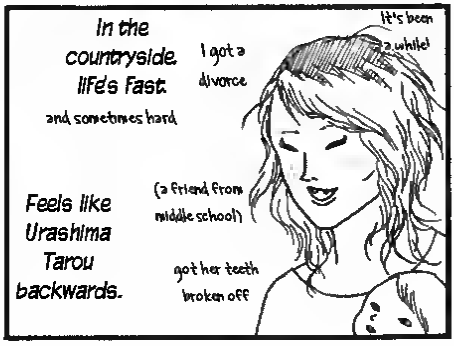


But then, lots of hair crabs appeared on the road and I had to drive while crushing them with the truck_ was kinda refreshing.
CRUSH



Say
How about children?
It's been a long time!
I don't have any I'm not married. either
(a friend from grade school)
And your breasts weren't that big
The last time I saw you, you had a satchel on your back





In the countryside, life's fast.
and sometimes hard.
I got a divorce
(a friend from middle school)
got her teeth broken off
Feels like Urashima Tarou backwards.
It's been a while!
